

PerfectSheer™

Snowflake in Light Filtering

SUPERIOR LIGHT TRANSITIONS

Experience PerfectSheer™'s soft interplay of light, colors and shadows, and elevate your decor and privacy control to a new level of elegance and softness. Offering the tightest closure on the market in its category, PerfectSheer™ combines a banded layered fabric shade for a sleek and modern effect. Plus a sheer fabric vane shade that creates an elegant louver-like look. For however you decide to adjust – relax. You can always change your mind.

PerfectSheer™

SHEER PERFECTION

From construction to hardware to its transitions of light, PerfectSheer™ embodies Norman®'s relentless pursuit of something better. An expression of challenged assumptions. An achievement of innovation resulting in not just perfection in function. But the creation of beauty monumental and stylish.

- Tight closure for privacy / light control
- Innovative design for superior light transitions
- 100% woven seams; not glued, sewed or heat fused
- 100% cordless option in motorized

VERSATILITY

PerfectSheer™ offers a range of privacy and light control options, making it a versatile and stylish choice for practically any room. From completely closed for privacy, to half open on a bright and sunny day, to fully open for radiantly soft and natural light, PerfectSheer™ offers total versatility for every privacy and light control need.

CRAFTSMANSHIP SEAMED

When you buy a pair of jeans, would you want them to be seamed with glue? How about with heat and / or chemicals? With PerfectSheer™ the difference is not just in the details. With PerfectSheer™, three layers of fabrics are woven together with advanced machinery and complex technology, creating unique ambient light effects and outstanding reliability. Our patented design uses carefully crafted woven fabrics to create a durable, lasting shade.

- 100% woven seams for beauty & reliability
- Fabric-sheers not glued or fused using heat
- Woven seams offers a smooth high-end finish
- Formaldehyde free

DESIGN YOUR SHADE

1. SELECT OPACITY

Select an opacity depending on your view through and practical requirements – either Light Filtering or Room Darkening.

2. SELECT FABRIC

Fresh colors, textures and woven details. Fabrics that embody stylishness with endurance, optimal light/privacy control with poise.

3. SELECT SHADE SYSTEM

Select from our innovative lift systems, manual or motorized.

4. SELECT TOP TREATMENT

Select Curved Fascia, Wood Valance, Fabric Valance.

5. SELECT EXTRAS

Available keystones to join top treatments and for a decorative touch.
Palladian shelves for an innovative solution to install our shades into arched windows.

OPACITIES

PerfectSheer™ makes it easy to match the fabric opacity suiting your needs. Choose from room darkening or light filtering. The room darkening opacity is sleek and elegant, and creates an immediate calming effect. Light filtering opacity allows more light to come through, while ensuring privacy when the shade is closed.

Light Filtering

Room Darkening

FABRICS

Uncover the airy delights within our sheer and fabric vane collection. The dynamic construction captures the spirit of all things modern, but with a softness that adds warmth to a room.

Featuring 100% woven construction, PerfectSheer™ fabrics avoid the more commonly used glued construction, which may deteriorate or yellow over time. If the wrong type of glue is used, it may even release formaldehyde, a chemical known to cause cancer.

Snowflake in Light Filtering

SHADE SYSTEMS

CONTINUOUS CORD LOOP

The Continuous Cord Loop utilizes a clutch system for smooth control while neatly maintaining a consistent cord length to the side.

AUTOWAND™ MOTORIZATION

Your budget-friendly motorization option is here. The simple and intuitive design allows you to automatically control your shades. With a simple push of a button, raise or lower your shades effortlessly.

AUTOMATION

Norman® Smart Motorization represents the pinnacle of innovation. With the ShadeAuto™ app, effortlessly control some or all of your shades and shutters with a single touch using your mobile device, whether you're home or away. For added convenience, personalize your experience by programming your shades and shutters to adjust automatically. Fully compatible with Google Assistant, Alexa and Apple HomeKit, Norman® Smart Motorization seamlessly integrates into your smart home ecosystem. With simple voice commands, operate your window treatments without lifting a finger.

TOP TREATMENTS

With an array of top treatments, PerfectSheer™ puts you in control, and elevates your everyday window covering needs into a sleek expression of style.

CURVED FASCIA WITH FABRIC

Provides a tailored, high-end look to match the shade.

WOOD VALANCE

The luxury and fine graining of wood comes crafted in bold and sleek lines, available painted or stained.

FABRIC VALANCE

For a relaxed but equally stylish look with clean and modern lines, the Fabric Valance is an elegant choice.

OPTIONAL KEYSTONE

Choose a matching keystone to join two valances together or to create a decorative touch.

PALLADIAN SHELF

The innovative solution creates a decorative mounting surface inside an arched window so that our shades can be installed in the resulting squared opening. Palladian shelves, which are made of wood, are an elegant way to split the curved part and squared part of arched window openings.

AVAILABLE COLORS

NORMAN®
SHUTTERS. BLINDS. SHADES.

Window Blind Cord Strangulation Risk

Window blinds with a damaged or loose tension device or retractable cord that fails to fully retract pose a strangulation risk to children. To avoid this potential strangulation risk, consider purchasing cordless products or products with inaccessible cords
