THE POETRY OF MOVING LIGHT

Capture the beauty of movement and interplay of shadow, light and darkness through SmartDrape™'s soft lines echoing soft fold drapery. SmartDrape™ is constructed from a series of individual fabric vanes, offered in your choice of light filtering fabrics, suspended in sheer that comes in your choice of patterns, to create a floating effect.

When closed, the shade easily transitions from completely solid to completely sheer and everywhere in between. SmartDrape™'s innovative construction not only makes cleaning and ironing easy, but also represents a significant value over traditional drapery.
